

Program Effectiveness Policy

This Program Effectiveness Policy establish has been established by the Board of Directors of the Pedal with Pete Foundation to ensure that the foundation has defined, measurable goals and objectives in place to evaluate the success and impact of its program(s) in fulfilling the mission of the foundation to support research leading to better prevention strategies, treatment protocols, or cures for cerebral palsy, as well as through other programs to improve the quality of life for people who live with cerebral palsy, their families and caregivers.

1. At least once every two years, the Pedal with Pete Foundation will review its goals and objectives toward achieving its mission and will complete a performance and effectiveness assessment of its programs based on that review.
2. Such an assessment will be conducted under the authority of the Board of Directors and will:
 - a. Describe the activities that the Pedal with Pete Foundation undertook in the prior two years to achieve its goals and objectives.
 - b. Identify the measures used to assess the Pedal with Pete Foundation's effectiveness in achieving its goals and objectives.
 - c. Analyze the effectiveness of the Pedal with Pete Foundation's programs in achieving the foundation's goals and objectives.
 - d. Recommend future actions the Pedal with Pete Foundation might take to increase effectiveness based on the findings.
3. At the conclusion of this process, the Pedal with Pete Foundation's Board of Directors will revise the goals and objectives for the Foundation, as needed, for the upcoming term, and will suggest means of measuring them.
